REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As to claims 1 and 13, the prior art of record does not teach or render obvious the limitations recited in claims 1 and 13, when taken in the context of the claims as a whole, specific to a host processor including a host communication infrastructure, a plurality of class processors each comprising an associated private localized read/write memory, an associated protected localized read/write memory, and public localized read/write memory, and a plurality of application program interface modules each defining a programming interface for a respective class processor to provide an interface with the host communication infrastructure.

Moreover, evidence for modifying the prior art teachings by one of ordinary skill level in the art was not uncovered so as to result in the invention as recited in claims 1 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
